

## WESTCHESTER MAILBOX STANDARD

### White Mailbox

Plastic Mailbox 19.5"Lx7.25"Wx10"H - Satin White

*Are metal mailboxes permitted?*

**The Architectural Review Manual stipulates that metal mailboxes are not permitted; however, effective June 27<sup>th</sup> the Review Board and Board of Directors agreed to incorporate and allow metal mailboxes. The pvc standard now being supplied or shipped by Capitol Supply & Ace Hardware appears to be of an inferior quality than the mailboxes they shipped in the past. For this reason we now recommend the metal box.**
